bjanes@deerfield.il.us

Dear Mr. Janes,

The *insert jurisdiction/member name* is pleased to support the North Branch Chicago River Watershed Workgroup. We are concerned about the water quality impairments identified within the Skokie, Middle and West Forks and the North Branch Chicago River, and wish to collaborate with other jurisdictions in the watershed to address these impairments and improve water quality. We believe the data collection and water quality assessment by the workgroup along with an updated watershed-based plan for the North Branch Chicago River will provide us with specific implementation measures to reduce pollutant loads and improve water quality, and will allow for collaboration on projects and activities to restore habitat to improve aquatic life.

The watershed workgroup will benefit *insert jurisdiction name* by taking a watershed-wide approach, making solutions more effective because all watershed stakeholders will participate, reducing individual expenditures. The workgroup will be an avenue for networking leading to collaboration on future projects and resolution of issues. We can commit to the full dues amount of \$\$\$, due May 1, 2018.

Please feel free to call me if you would like to discuss *insert jurisdiction name*'s support of this application at *insert phone number*.

Sincerely,

Name
